#### Directions:

For basic application use at a rate of 15ml per liter. Spray both sides of the leaves two times a week. Also use with Bloom Nutrients and Micro Nutrients to ensure an optimal nutrient solution. Refer to [www.xnutrients.com](http://www.xnutrients.com) for feeding schedules.

# BLOOM SPRAY

# XNUTRIENTS

Bloom Spray is specifically designed for the flowering and fruit stage. Bloom Spray is a power packed concentrated spray that is applied to the leaves during flowering or fruiting. Within weeks you will see improved flowering, fruit density and higher yields.

- Always use with Grow Nutrients or Bloom Nutrients for improved results.
- Refer to [www.xnutrients.com](http://www.xnutrients.com) for feeding schedules and amounts
- Maintain pH between 5.5 and 6.5. Use pH Up/Down to maintain water quality.

Keep out of reach of children  
Protect from freezing / direct sunlight
